

# For theft and burglary protection, your cash is safe with Gary®.

Major high-volume retailers all over the country trust Gary's complete line of custom-plate, trim, depository and other safes to protect against burglary and theft. Built from thick carbon steel with extra-heavy-duty everything, there's just about nothing that can outlast a Gary.

Affordably priced, Gary offers custom designs as well as standard/stock items in an extensive range of styles, sizes and options to meet your needs. And all Gary safes carry a one-year limited warranty.

HB3314 DUAL DEPOSITORY SAFE

FB2114 DEPOSITORY SAFE

## GARY® DEPOSITORY SAFES

For reliable protection from theft and robbery, choose a Gary depository safe. Created to handle the security needs of retailers, depositories feature a half-inch door, formed steel body and three types of drop options: front loading hopper, top loading rotary hopper, or front loading drop slot. Choose from single compartment 20" and 27" models or a 33" dual compartment version. All are available with key and/or combination (dial or electronic) locks. The compact size of single door models permits under-counter installation. Double door models allow tellers to obtain coins from bottom compartments while restricting access to dropped cash in top compartments.
