

## Safes “CH” series

### Presentation

Safes “CH”, **certified UNI EN 1143-1 at level 1**, are proposed in 5 sizes to satisfy all request of safe-keeping of valuables and documents.

These safes are well used in houses, offices, public bodies and can be fixed on walls or floor.

| Model | External dimensions<br>(cm HxLxP) | Internal dimensions<br>(cm HxLxP) | Weight | Capacity<br>liters | Shelves |
|-------|-----------------------------------|-----------------------------------|--------|--------------------|---------|
| C 20  | 40X51X36 (*)                      | 27,5X38,5X17,5                    | 120    | 20                 | 1       |
| C 30  | 60X51X52 (*)                      | 47,5x38,5x33,5                    | 190    | 60                 | 2       |
| C 40  | 80X51X45 (*)                      | 67,5x38,5x26,5                    | 240    | 75                 | 3       |
| C 60  | 100X51X52 (*)                     | 87,5x38,5x33,5                    | 290    | 112                | 3       |
| C 80  | 120X61X52 (*)                     | 107,5x48,5x33,5                   | 390    | 180                | 3       |

(\*)+ cm 4,5 for handle

### Characteristics

- Internal and external walls in high quality steel
- Multi-layers inside armored shield with special conglomerate
- Plate in manganese steel to protect closing mechanisms
- Door fastened to the frame by means of movable cylindrical bolts (fixed anchoring systems on hinges sides)
- Inner shelves shift on racks
- Holes for anchoring on base and back
- **Certification UNI EN 1143-1 at Level I**

### Locks

Key lock (certified UNI EN 1300 Level B)

Other lock on request

**Color:** Grey RAL 7031
